Marine Incinerators

Widely recognized by shipowners and fleet operators, Detegasa Marine Incinerators are the most effective solution for managing both sludge and solid waste. With Detegasa Marine Incinerators, you can enjoy peace of mind knowing that your waste is being handled by the best in the business.

- **Wide range of incineration, between 100.000 and 1.000.000 Kcal/h**
- **IMO MEPC 76(40) & 244(66) MED Type Approved**
- **IRA Series: designed to burn only solids**
- **IRLA Series: designed to burn both solids & sludge**
- **Total automatic control**
- **Continuous feeding available**
- **Containerized solutions available upon request**

detegasa

Our incinerators are designed to meet the highest standards of quality and efficiency, ensuring that your waste is disposed of safely and responsibly.

The burning process is expertly controlled using a state-of-the-art PLC and a user-friendly touch screen to monitor all stages.

Our system performs all necessary functions, triggers alarms, and initiates shutdowns in strict accordance with IMO and Classification Society requirements.
